## EXPERIENCE

### Web Development Intern

Mar'24 – May'24

*Cognifyz Technologies, Nagpur*

- Developed responsive and visually appealing user interfaces using HTML5, CSS3, and Java Servlets, enhancing user experience and accessibility.
- Streamlined performance, reducing app loading times by 40% and improving cross-border comparability.

### Software Engineer (Project-Based)

Aug'24 – Dec'24

*Independent Collaboration*

- Implemented RESTful APIs using Java Spring Boot, ensuring seamless data flow between the front-end and back-end.
- Optimized MySQL database queries, reducing query response time by 20%.

## EDUCATION

Priyadarshini College of Engineering, Nagpur

Aug '22 – Jun'25

*Bachelor of Technology in Computer Technology | CGPA: 7.4 /10*

Priyadarshini Polytechnic, Nagpur

Aug'19 – Aug'22

*Diploma in Computer Technology | Aggregate: 81.49%*

## PROJECTS

**Mytalorzone-Commerse** | *React, Java, Spring Boot, Hibernate, MongoDB* [Code](#) | [Live](#)

- Developed a comprehensive e-commerce platform, allowing users to browse, filter, and sort products with intuitive product variant selection.
- Implemented cart and order functionalities with support for multiple payment methods, including Cash on Delivery and secure online payments via Stripe and Razorpay, enhancing transaction reliability.
- Built an admin dashboard enabling product management (add, delete, and view products) and order tracking, increasing administrative efficiency.

**RepoScout (GitHub Inspired)** | *React, Java, Spring Boot, Hibernate, MongoDB, Tailwind CS, GitHub API* [Code](#)

- Designed and developed a GitHub-inspired web application to explore user profiles and manage repositories seamlessly.
- Developed advanced repository filtering tools for sorting and searching repositories effectively.
- Enabled user interactions, such as liking profiles and viewing repository statistics.

**Employee Management System** | *React, Java, Spring Boot, Hibernate, MySQL, Tailwind CSS* [Code](#)

- Developed a custom web application using Java and Spring Boot, improving data persistence by 50% through the integration of MySQL, achieving real-time, secure data persistence.
- Implemented a secure authentication and task management system using JWT (JSON Web Tokens) and bcrypt for password hashing, ensuring secure user login and data protection.

## TECHNNICAL SKILLS

**Programming Languages:** Java, SQL, JavaScript

**Development:** React.js, JDBC, SpringBoot, Servlet, Hibernate, Java Beans, Java Applets, TailwindCSS

**Databases & Other:** MySQL, MongoDB, Docker, GitHub, Figma, Postman, JUnit

## CERTIFICATIONS

### Java Full Stack Development

*Symbiosis Skills and Professional University, Pune.*
